

I'm Melissa Tatta, a dedicated professional with 27 years of experience in the credit reporting and mortgage industry. My passion lies in helping clients improve their borrowers' credit and achieve their business goals. I specialize in assisting financial institution borrowers with their credit, increasing their credit scores to help close more loans. I am well-versed in all mortgage credit, verification, and fraud products.

In my early career years, I traveled extensively throughout the Northeast, educating the mortgage industry on credit and the importance of their borrowers maintaining a solid credit score. I played a crucial role in promoting credit education before credit simulators became widely available, empowering my clients to understand their borrowers' credit and make informed decisions.

Currently, I work as a Senior Account Executive at CIC Credit in the Tri-state Area. In this role, I continue to leverage my extensive knowledge and experience to help clients navigate the complexities of the credit reporting and mortgage industry. My commitment to credit education and my clients' success has made me a respected and sought-after professional in my field.

I enjoy vacationing in Cape May, New Jersey, every summer when I'm not working. The coastal town's natural beauty and historic charm provide the perfect backdrop for relaxation and rejuvenation.
